Analytically focused professional blending machine learning expertise with consistent, high-level client service performance. Experienced in developing predictive models and executive-level dashboards to translate complex data into actionable insights. Currently serving as primary liaison for financial advisors, wealth managers, and trust attorneys, I am positioned to enhance team operations by integrating quantitative problem-solving with a dedicated focus on high-net-worth client satisfaction.

## EDUCATION

**Bachelor of Arts** at Lawrence University in Appleton, WI

- Degrees in Philosophy and Biology with a Concentration in Machine Learning.
- Relevant Coursework:** Statistical Modeling, Predictive Analytics, Data Science Applications.

## WORK EXPERIENCE

**Lead Agent** at Rochester Telemessaging Center in Rochester, MI 06/2025 to Present

- Financial Services Support:** Primary contact for financial advisors, wealth managers, and estate planning attorneys, handling sensitive client communications and urgent wealth management inquiries.
- Executive Communication:** Interface directly with C-suite executives and key decision-makers across 1000+ client companies, often conducting negotiations and discussions on their behalf.
- High-Stakes Client Service:** Manage critical communications for Abbott Medical Technology's pacemaker/ICD representative system and acute care hotlines, demonstrating ability to handle complex, high-pressure situations with discretion.

**Account Manager** at Askia Inc in Detroit, MI 02/2025 to 05/2025

- Client Acquisition:** Exceeded sales targets through a consultative approach to matching customer needs to appropriate solutions.
- CRM Analytics:** Utilized Salesforce to track conversion metrics and optimize client acquisition strategies.

**POS Implementation Specialist** at Celtica French Bakery in New Orleans, LA 11/2022 to 11/2024

- Systems Integration:** Led the full-cycle deployment of an integrated Point-of-Sale (POS) system, automating data tracking, streamlining operations, and improving system efficiency.
- High Volume Order Coordination:** Managed and fulfilled hundreds of specialty King Cake orders during Mardi Gras, overseeing order intake, production, and delivery logistics during the bakery's busiest season, ensuring timely and accurate service under high-pressure conditions.
- Process Automation:** Developed and implemented automated reporting processes, which reduced manual data entry errors by over 90% and enhanced data integrity. Fixed discrepancies in tip distribution, ensuring fairness for employees.

**Server** at Saigon Café in Colorado Springs, CO 01/2021 to 09/2022

- Client Relationship Management:** Built a loyal customer base through personalized service and attention to individual preferences.

**Assistant Researcher** at BYOBeez in Appleton, WI 09/2017 to 01/2020

- Predictive Modeling:** Developed machine learning models that improved forecast accuracy by 25% using Python and R.
- Dashboard Development:** Created executive-level dashboards, translating complex statistical findings into actionable insights.
- Statistical Analysis:** Conducted regression analysis, time series forecasting, and multivariate testing.

**Lead Groundskeeper & Assistant Carpenter** at Colorado College in Colorado Springs, CO 06/2017 to 09/2019

- Project Management:** Coordinated cross-functional teams to deliver projects on time and within budget.

**Volunteer Ski Patrolter** at Copper Mountain in Frisco, CO 10/2014 to 06/2017

- Crisis Management:** Provided calm, empathetic support during high-stress emergencies.

## PROJECTS

- AI-Powered Multi-Tenant Answering Service:** Engineered a HIPAA-compliant real-time voice AI service that autonomously handles intake and scheduling, replacing voicemail and trees with an intelligent receptionist. (Live Demos: 248-846-1901 & 248-710-0164).
- Wealth Management Platform:** Developed a recommendation engine that utilizes vector embeddings to cluster market conditions and optimize option overlay selection.
- Machine Learning Portfolio:** Learning Portfolio: Additional forecasting models available on my website and GitHub.

## TECHNICAL SKILLS & CORE COMPETENCIES:

- Data Analytics & Machine Learning:** Python, PostgreSQL, and TypeScript for developing dashboards, forecasting models, and decision-making algorithms.
- Data Visualization:** Power BI, Tableau, TypeScript, and advanced Excel for creating interactive reports and technical dashboards.
- Quantitative Analysis:** Statistical modeling, predictive analytics, and time series forecasting.
- Technical Support & Client Management:** Proven ability to build trust with technical clients and executives; experience translating complex technical concepts for non-technical stakeholders.
